

TOWN OF HERMOSA

Second Water Meter for Sewer Credit Application

THIS AGREEMENT made in duplicate this ____ day of _____, _____, by and between the Town of Hermosa, 230 Main St., Hermosa, SD 57744, hereinafter called Town of Hermosa; and

_____, hereinafter called the customer; whereby the parties mutually agree as follows:

- a. Customer agrees to pay the upfront cost of the second meter per fee schedule, payable to the Town of Hermosa, prior to the installation of the second meter, or any sewer usage credits being applied.
- b. Second meter must be installed by the Town of Hermosa and may only be used for gray water purposes (watering lawn & garden, filling pools, spas, etc.).
- c. Second meter shall be read monthly, by the Town of Hermosa, in conjunction with the first meter, beginning the 1st of May of each year (or upon the date of installation of the second meter, whichever is later), and ending on the 1st of October of each year.
- d. Monthly invoices include usage from the previous month; therefore, the second meter will record usage between April 1st and September 30th.
- e. Usage from the monthly reading of the second meter, shall be deducted from the total water usage of the first meter, and this new total shall be the usage recorded under Sewer Usage Charges, on the monthly utility bill in which it was read.
- f. All water charges for the both meter must be kept current. Abuse of this policy will result in denial of future credits for sewer use.
- g. If at any time, the Town of Hermosa determines that the customer has violated any provision of this original application, the Town of Hermosa will have the right and obligation to remove the second meter from the location, as well as this applied sewer credit from all further utility bills of said customer.

I understand and agree to the terms of the application for a Second Water Meter for Sewer Credit listed above.
